What are we gonna learn today? What are parents gonna learn in your session?
 - N** Nicole Tetreault 00:12
Ah, you and I are going to talk about so much fun stuff. We're going to talk about rewiring the mind for positive neuroplasticity, we're going to talk about these alternative paths that these twice-exceptional brilliant kids have, and really how to embrace their amazing unique brains and minds, and how to really embrace who they are.
