What is up, parents? Welcome back, it's me again, Seth Perler. Welcome to year three of TEFOS, the Executive Function Online Summit.
 - S** Seth Perler 00:07
Parents, three things. One, if you want your child to be happy and successful, and two, you're concerned about your child's executive function, whatever that means, your child's ability to get important school and life things done so that they can have a great future and a great quality of life, and three, you are the type of parent who is proactive, you take things seriously, and you're willing to put some time and effort into learning what works, rather than just expecting things to magically change on their own, then you're in the right place.
 - S** Seth Perler 00:37
Again, my name is Seth Perler. Welcome to TEFOS, the Executive Function Online Summit for parents. And if you're not a parent, you're a teacher, a grandparent, a therapist, a para, a tutor, or anybody else who cares about helping these kiddos, you are more than welcome to join us, attend, sign up, register for free. Once you register here, you click it, pop your email in, we'll take care of the rest. We'll send you a confirmation email and you

don't have to worry about anything after that point. And yes, if you want to own it, and you want to buy it, you're more than welcome to do that as well. After the three days are over, you can purchase it if you want.

Now, I am so excited. You're here. This is our third year, we have all new speakers this year. And this is one of the most heartfelt summits you will ever experience. Me and these amazing speakers, these are people, experts who have devoted their lives to the service of kids, to the service of helping people. We've poured our hearts into creating something amazing that's intended to benefit you and your child in terms of being a game-changer. Give you breakthroughs, be transformative. Not make everything perfect, but definitely put you in a different place by the end of the weekend. Change in any area isn't easy. It's not just about getting a few tips and tricks. And change doesn't happen when people are uninvolved, or they're apathetic, or they're uninterested in what's going on with their kids, or they're in a fantasy world about things, or they're indifferent about their kids, or they're insensitive.

Change happens when we immerse ourselves in two things, knowledge and action. Knowledge plus action equals change. So what we've done here, what the experts have done is tried to give you that. We want you to take the time, immerse yourselves in the knowledge and action and strategies that we're going to teach you. Take this weekend, get on this journey, or if you've been with us before, welcome back and you can do a refresher and deepen your knowledge and your understanding of executive function so that you can help your child. If you do immerse yourself, you will have shifts, you'll have little shifts, little wins, little "A-ha" moments. By the end of the weekend, you're going to be pretty overwhelmed, it's gonna be like a jar of mud all shook up, there's gonna be so much in your mind. But as the mud settles out, you will really be able to see these shifts and really implement them into being able to support your child.

So it's designed to be a game-changer, as I said, to impact your life, to help you. So we want you to get everything you can out of this. You can look in the Facebook group and see how it's impacted people if you want. But go ahead and sign up for free, dive in for the three days. And again you can buy it if you want, but at least register and dive in for free for the three days. After you're done registering, do the most important thing in the world. Go connect with your child. Have a great day.
